

# WIEGAND EMULATING Keypad

Access control at its simplest.  
Requires no credentials, just an easy-to-remember PIN.

## FEATURES & BENEFITS

- No credentials required – only a simple, 1- to 5-digit Personal Identification Number (PIN)
- Emulated 26-bit or Cansec's signature 37-bit Wiegand output offers compatibility with most access control systems
- Rugged construction stands up to weather, water and dust
- Vandal-resistant stainless steel face plate and keys provide lasting durability and reliability
- Available with plastic face plate and keys for a cost-effective indoor or sheltered outdoor solution
- Consistently high performance up to 500' from control panel
- Sonalert and bi-colour LED provide auditory and visual signals of access granted or denied
- Ideal for storage rooms and other basic access control applications
